★★★★★

66

I no longer book through the cruise line itself because Cruises.com has everything I want. The prices are better, the options of so many different cruise lines are amazing, and I prefer their payment options too. I made a mistake after booking a cruise and the representative was so pleasant about fixing it. Cruises.com is the best! With service like that, there's no reason why I would ever go back to booking with the cruise line directly.
